##### PRODUCT DESCRIPTION, STYLES, AND GRADES

§ 52.2481 *Product description.* Dried apples are prepared from sound, properly ripened fruit of the common apple (*Malus pumila*) by washing, sorting, trimming, peeling, coring, and cutting into segments. The prepared apple seg-

ments are properly dried to remove the greater portion of moisture to produce a semi-dry texture. The product may be sulfured sufficiently to retard discoloration. The dried apples are sorted or cleaned, or both, to assure a clean, sound, wholesome product.

§ 52.2482 *Styles of dried apples—(a) Pie pieces.* Pie pieces consist predominantly of irregularly shaped segments of approximate parallel thickness.

(b) *Slices (or rings)* Slices (or rings) consist predominantly of circular sections or partial circular sections with open or solid centers, cut at approximate right angles to the core and of approximate parallel thickness.

(c) *Wedges.* Wedges consist predominantly of sectors cut longitudinally and radially from the core.

(d) *Cuts.* Cuts consists of dried apple segments of irregular shapes or irregular thicknesses, or both, which are not predominantly of a single style of pie pieces, slices (or rings), or wedges.

§ 52.2483 *Grades of dried apples.* (a) "U. S. Grade A" or "U. S. Fancy" dried apples is the quality of dried apples in the style of pie pieces, slices (or rings) or wedges in which the moisture content of the finished product is not more than 24 percent by weight, that possess similar varietal characteristics, that possess a normal flavor and odor, that possess a good color, that are practically uniform in size, that are practically free from defects, and that possess a good texture.

(b) "U. S. Grade B" or "U. S. Choice" dried apples is the quality of dried apples in the style of pie pieces, slices (or rings), or wedges in which the moisture content of the finished product is not more than 24 percent by weight, that possess similar varietal characteristics, that possess a normal flavor and odor, that possess a reasonably good color, that are reasonably uniform in size, that are reasonably free from defects, and that possess a reasonably good texture.

(c) "U. S. Grade C" or "U. S. Standard" dried apples is the quality of dried apples in the style of pie pieces, slices (or rings), wedges, or cuts in which the moisture content of the finished product is not more than 24 percent by weight, that may possess dissimilar varietal characteristics, that possess a normal

(d) *Practically uniform in size.* "Practically uniform in size" has the following meanings for the respective styles:

(1) *Pie pieces.* (i) Practically all of the units are approximately  $\frac{1}{16}$  inch to no more than approximately  $\frac{1}{4}$  inch in their greatest thickness;

(ii) Not less than 85 percent, by weight, of all the units are 1 inch or more in their longest dimension; and

(iii) Not more than 2 percent, by weight, of all the units may be so small as to pass readily through  $\frac{5}{16}$  inch square openings.

(2) *Slices (or rings).* (i) Practically all of the units are no more than approximately  $\frac{1}{4}$  inch in their greatest thickness;

(ii) Not less than 75 percent, by weight, of all the units are whole and practically whole rings; and

(3) *Wedges.* (i) Not less than 90 percent, by weight, of all the units are  $1\frac{1}{4}$  inches or more in their longest dimension and the greatest thicknesses of such units do not vary more than  $\frac{1}{4}$  inch.

(e) *Reasonably uniform in size.* "Reasonably uniform in size" has the following meanings for the respective styles:

(1) *Pie pieces.* (i) Practically all of the units are approximately  $\frac{1}{16}$  inch to no more than approximately  $\frac{1}{4}$  inch in their greatest thickness;

(ii) Not less than 60 percent, by weight, of all the units are 1 inch or more in their longest dimension; and

(2) *Slices (or rings).* (i) Practically all of the units are no more than approximately  $\frac{1}{4}$  inch in their greatest thickness;

(ii) Not less than 60 percent, by weight, of all the units are whole and practically whole rings; and

(iii) Not less than 60 percent, by weight, of all the units are  $1\frac{1}{4}$  inches or more in their longest dimension.

(3) *Wedges.* (i) Not less than 75 percent, by weight, of all the units are  $1\frac{1}{4}$  inches or more in their longest dimension and the greatest thicknesses of such units do not vary more than  $\frac{1}{4}$  inch.

(f) *Fairly uniform in size.* "Fairly uniform in size" has the following meanings for the respective styles:

(1) *Pie pieces.* (i) Practically all of the units are approximately  $\frac{1}{16}$  inch to no more than approximately  $\frac{1}{10}$  inch in their greatest thickness;

(ii) Not less than 40 percent, by weight, of all the units are 1 inch or more in their longest dimension; and

(iii) Not more than 10 percent, by weight, of all the units may be so small as to pass readily through  $\frac{5}{16}$  inch square openings.

(2) *Slices (or rings).* (i) Practically all of the units are no more than approximately  $\frac{1}{10}$  inch in their greatest thickness;

(ii) Not less than 40 percent by weight of all the units are whole and practically whole rings; and

(iii) Not less than 40 percent by weight of all the units are  $1\frac{1}{4}$  inches or more in their longest dimension.

(3) *Wedges.* (i) Not less than 50 percent by weight of all the units are  $1\frac{1}{4}$  inches or more in their longest dimension and the greatest thicknesses of such units do not vary more than  $\frac{5}{16}$  inch.

§ 52.2486 *Definitions of defects and degrees of freedom from defects*—(a) *Small pieces.* "Small pieces" in the style of slices (or rings) means units that are less than 1 inch in their longest dimension.

(b) *Loose core or major portion thereof.* "Loose core or major portion thereof" means any part of an apple core that approximates one-half or more of the apparent original core including the seed cells and carpel tissue, with or without seeds. The seeds attached to such loose core or major portion thereof are not scorable as "seeds" within this section.

Chapter I—Office of the Secretary of Defense

PART 149—PAYMENTS ON INCENTIVE-TYPE AND PRICE-REVISION-TYPE CONTRACTS

Sec.  
149.1 Purpose.  
149.2 Policy.  
149.3 Action.

AUTHORITY: §§ 149.1 to 149.3 issued under R. S. 161; 5 U. S. C. 22.

§ 149.1 *Purpose*. It is the purpose of this part to eliminate the need for substantial refunds by contractors after retroactive final determination of prices

on incentive-type and price-revision-type contracts and to facilitate timely adjustment of provisional billing prices.

**§ 149.2 Policy.** To accomplish the purpose of this part, effective on or before October 1, 1955, all contracts of the incentive-type and price-revision-type shall provide that the aggregate total payments on such contracts shall not at any time exceed 105 per cent of the total costs incurred as of any given date, prior to the negotiation of a firm and finalized price.

**§ 149.3 Action.** (a) All new contracts of the incentive or price-revision-type, all amendments to existing contracts of these types providing for additional new procurements, and all definitive contracts of the incentive or price-revision-type replacing or superseding letter contracts, entered into subsequent to October 1, 1955, shall contain the following provisions:

Notwithstanding any other provisions of this contract, until final price revision has been made, the total payments under this contract shall not at any time exceed 105 per cent of the contractor's total costs incurred in the performance hereof as certified by the contractor to be reasonable in amount and properly allocable to this contract.

In connection with amendments providing for new procurement, the above provision shall be made applicable to the entire contract.

(b) Where the contracting officer has discretion to control payments through withholding provisions under an existing contract, the contract shall be administered hereafter so that the total aggregate payments will not exceed 105 percent of incurred costs under the contract. Accordingly, each such contractor shall be required, as a condition precedent to any payment under such a contract on and after December 1, 1955, to certify with each invoice that the amount claimed thereon together with the aggregate total of all previous payments invoiced and not disallowed under the contract does not exceed 105 percent of the total incurred costs reasonably and properly allocable to such contract.

(c) In the case of outstanding contracts of the incentive-type or price-revision-type, where payments cannot be limited within a reasonable period of time to 105 percent of the total incurred costs reasonably and properly allocable to a contract through giving effect to a. or b., above, the contracting officer shall take prompt action to obtain by mutual agreement an amendment of such contracts incorporating the clause in paragraph (a) of this section.

**Effective date.** This directive is effective upon issuance. It will be included in the procedures, instructions or directives of each military department so as to be operative throughout all procuring activities not later than October 1, 1955.

## TITLE 14—CIVIL AVIATION

### Chapter I—Civil Aeronautics Board

#### Subchapter B—Economic Regulations

[Reg. ER-208]

#### PART 225—TARIFFS OF CERTAIN CERTIFICATED AIRLINES; TRADE AGREEMENTS

##### EXTENSION OF CATEGORY OF CARRIERS AUTHORIZED TO EXCHANGE AIR TRANSPORTATION FOR ADVERTISING GOODS OR SERVICES

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 19th day of September 1955.

Part 225 of the Economic Regulations authorizes all local service airlines (other than carriers furnishing air transportation exclusively by helicopter) operating within the territorial limits of the continental United States to exchange air transportation for services or goods for advertising purposes, and grants a limited exemption from section 403 (b) of the Civil Aeronautics Act.

Under Part 225, which is effective only until January 1, 1956, the carriers are required to reveal and clearly set forth full information as to agreements for such exchanges in their regular books of account. The maximum amount of transportation furnished under such trade agreements by each carrier is limited in the aggregate to \$25,000. Further details are set forth in Part 225 as originally published on January 25, 1955.

The Board has carefully considered the petition of one of the certificated carriers operating only between points within the Territory of Hawaii requesting that Part 225 be made applicable to its operation.

Inasmuch as both of the certificated carriers now operating within the Territory of Hawaii are subsidized carriers which have limited funds available for advertising, the Board believes it to be in the public interest to grant the petition, making the terms of such grant applicable to carriers operating only between points in Hawaii. The Board is taking this action in order to assist the carriers in their efforts to reduce their dependency on subsidy payments. It is expected that this will permit these carriers to reduce their expenditure of funds for advertising, or increase the amount

of advertising received for the same expenditure.

Furthermore, it is noteworthy that the operations conducted by these carriers in Hawaii are similar in all pertinent respects to those of the local service carriers operating wholly within the continental United States. The Board further recognizes the fact that advertising imposes a disproportionately heavy burden on both of these types of carriers because of their responsibility to serve many low density points over short-haul routes.

This extension of the provisions of Part 225 to all certificated carriers operating wholly within the Territory of Hawaii does not result in any undue competitive advantage to them over any other carrier, or class of carriers, nor does it result in any diversion of traffic. Finally, as this action is being taken by way of amendment to Part 225, its period of effectiveness does not extend beyond the terminating date of the original part, namely January 1, 1956.

Inasmuch as other persons are not directly concerned with this amendment, because of the limited amounts involved, the short remaining life of Part 225, and the slight effect of the provisions herein on the traveling public, it is of little or no importance to them. For these reasons, the Board finds that notice and public procedures hereon are unnecessary.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 225 of the Economic Regulations (14 CFR Part 225) effective September 19, 1955, as follows:

1. By amending the caption of Part 225 to read as follows: Part 225—Tariffs of Certain Certificated Airlines; Trade Agreements.

2. By amending § 225.1 (a) to read as follows:

§ 225.1 *Definitions.*—(a) *Airline.* As used in this part "airline" shall mean:

(1) Any air carrier (other than an air carrier furnishing air transportation exclusively by helicopter) furnishing within the continental limits of the United States, local or feeder type air transportation consisting of the carriage of persons, property, and mail under a certificate of public convenience and necessity issued by the Board.

(2) Any air carrier (other than an air carrier furnishing air transportation exclusively by helicopter) furnishing, only between points within the Territory of Hawaii, air transportation consisting of the carriage of persons, property, and mail under a certificate of public convenience and necessity issued by the Board.

3. By amending all sections and paragraphs of Part 225 as follows: By deleting the words "local service" in all instances where used immediately preceding "airline", as descriptive thereof.

(Sec. 205, 52 Stat. 934; 49 U. S. C. 425. Interpret or apply secs. 403, 404, 416, 52 Stat. 932, 933, 1004; 49 U. S. C. 423, 424, 436)

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,  
Secretary.

## PROPOSED RULE MAKING

### CIVIL AERONAUTICS BOARD

[14 CFR Part 241]

[Economic Regs., Draft Release 68D]

REVISED UNIFORM SYSTEM OF ACCOUNTS  
AND REPORTS FOR CERTIFICATED AIR  
CARRIERS

NOTICE OF PROPOSED RULE-MAKING

SEPTEMBER 20, 1955.

Notice is hereby given that the Civil Aeronautics Board has under consideration modification of a previously proposed amendment to the accounting and reporting requirements of Part 241 of the Economic Regulations (14 CFR Part 241) published as Draft Release No. 68, dated July 6, 1954. The principal features of the modification are set forth in the attached Explanatory Statement.

Interested persons may participate in the proposed rule-making through submission of written data, views or arguments pertaining thereto, in triplicate, addressed to the Secretary, Civil Aeronautics Board, Washington 25, D. C. All relevant matter in communications received on or before October 24, 1955 will be considered by the Board before taking final action on the proposed rule.

Copies of the proposed amendment are being sent to all air carriers concerned. Other interested persons may obtain a copy of the proposal upon writ-

ten request to the Office of Carrier Accounts and Statistics, Civil Aeronautics Board, Room B-204, Temporary 5 Building, Washington 25, D. C., or may examine a copy at that Office.

This regulation is proposed under authority of sections 205 (a) and 407 of the Civil Aeronautics Act of 1938, as amended, (52 Stat. 984, 1000; 49 U. S. C. 425, 487)

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,  
Secretary.

*Explanatory statement.* This statement in connection with the proposed revised system of accounting and reporting requirements is offered for the sole purpose of explaining the major features of the modifications to the proposed amendment to the accounting and reporting requirements of Part 241 of the Economic Regulations which the Board has under consideration. Following are the major items to which the Board calls specific attention:

1. Flight equipment spare parts and assemblies are subdivided as between those of a type which are ordinarily consumable within one year and those of a type which ordinarily possess a life expectancy which is significantly longer than one year. The former types of

parts and assemblies are classified as current assets. Reserves for obsolescence of such parts and assemblies are permitted only after approval by the Board of a plan submitted by each air carrier which clearly demonstrates the need for such obsolescence provisions. The latter types of parts and assemblies are classified as property and equipment. Reserves for depreciation of such parts and assemblies are provided for and the assets involved are to be accounted for in the same manner as other classes of property and equipment.

2. Reserves are prescribed for airframe maintenance operations performed in periodic cycles which are significantly longer than one year apart, the cost of which is of sufficient magnitude to distort current maintenance expenses if expensed as performed. Waivers of the required maintenance reserves are provided for upon a showing by individual air carriers that maintenance expenses, if charged off as incurred, will be distributed between accounting years approximately in accordance with the operations performed in each year. Maintenance reserves are reflected as valuation reserves to be offset against the assets to which related in balance sheet presentations.

3. Self insurance reserves are provided for as appropriations of retained earnings but provisions are made for recurrent charges to operating expenses for

<sup>1</sup> Forms filed as part of original document.

self insured risks and for clearing the net of self insurance provisions and realized losses each accounting year, through a deferred credit clearing account, to nonoperating income so that while operating expenses may reflect full insurance costs, net income will reflect the net losses actually sustained by the air carrier each accounting year.

4. Expense credits are generally to be cleared to the objective expense accounts to which related. Provision is made, however, for leaving certain expense credits uncleared in an objective expense account 77 Uncleared Expense-Credits provided such uncleared expense credit account is not employed in the direct flight, direct maintenance and depreciation expense functions and standards are set up, either as may be prescribed by the Board or otherwise, in order to prevent an impairment of the objective accounts of the functions to which related.

5. Charges by other airlines for services provided the accounting carrier under aircraft interchange agreements are charged to separately-designated accounts within each expense function with charges for depreciation, or interest on the investment in aircraft furnished, being included in the Flying Operations function. The detailed aircraft operating expenses applicable to the operation of other carriers' aircraft are to be separately reported in aggregate for all interchange aircraft, as if for a distinct aircraft type, with distribution, in summary, of the expenses included therein applicable to those aircraft of the same type as those owned and operated by the accounting carrier.

6. Charges by associated companies against the air carrier and charges by the air carrier against associated companies are to be cleared through designated clearing accounts to the applicable balance sheet or profit and loss accounts and the total dollar volumes of transactions with associated companies are to be reported annually. Provision is made for waiver of the required clearance of transactions with associated companies through specified accounts upon a showing that equivalent information is and will continue to be readily available from records otherwise maintained by the air carrier.

7. As a general policy, income taxes are to be accrued in an amount equivalent to the actual tax liability applicable to each period on the basis of laws and regulations then in effect. Exception is made to this general policy, as may be directed or approved by the Board, to accrue and defer income taxes for apportionment among various accounting periods to fairly reflect the tax burden against actual income taken up in each period, in cases where differences in income from using accelerated amortization of depreciable properties provided for under the tax laws are sufficiently material to undermine the integrity of the carrier's financial statements.

8. Aircraft departures in revenue services are to be reported in terms of departures actually performed by each aircraft type, including extra sections of scheduled departures.

9. Compensation and expenses of all general officers and directors and the

aggregate and range of compensation and expenses of management personnel receiving compensation for personal services of \$10,000 or more per annum are to be reported annually.

10. Payments of \$5,000, or more, to persons and firms other than officers, directors or employees of the air carrier, as compensation for personal services or reimbursement of expenses are to be reported annually.

11. Special income items are to be identified in terms of standards, which may be prescribed by the Board, or otherwise, as will prevent a distortion of the financial results for each accounting year.

12. Traffic accounts receivable or payable, and current accounts receivable or payable between associated companies are each to be accounted for and reported in gross amounts receivable or payable and shall not be offset except that traffic balances normally settled through airline clearing houses shall be reported in net amounts receivable or payable. Balances between associated companies which are not settled currently shall be reported in net amount receivable from or payable to each associated company.

13. Transactions in foreign currencies are to be initially stated, and current assets and liabilities currently restated, in United States Dollars at currently realizable rates of exchange unless free exchange is not permitted and governmentally controlled rates are established, in which case the latter rates shall be used. Standard rates of exchange are permitted in lieu of currently realizable or governmentally prescribed rates provided such standards reasonably approximate actually existing rates. Gains or losses from restatements of, or physi-

cal conversion of, balances in foreign currencies are credited or charged to nonoperating income.

14. Cumulative totals are to be reported for some financial and statistical items in terms of the accumulated 12-months-to-date results with the proviso that 12-months-to-date totals applicable to certain specified items will be waived until December 31, 1956.

15. Passenger volume statistics are to be reported quarterly by airports in terms of both unduplicated on-line originations and total aircraft boardings. Nonpassenger traffic volume statistics are to be reported quarterly by airports in terms of total aircraft boardings only. Passenger volume statistics are to be reported monthly by services in terms of total aircraft boardings and in total, for the overall operations of each reporting entity, in terms of on-line originations with the proviso that monthly on-line passenger originations may be measured on the basis of a standard number of boardings per over-all on-line journey.

16. Personnel compensation is to be reported separately for personnel based within the continental limits of the United States and, separately by operating entity for personnel based outside the continental limits of the United States. Report is to be made by each personnel compensation objective expense account for the latest payroll period ended nearest the 15th of the last month of each quarter and the reported compensation is to represent annual rates.

17. The Aircraft and Traffic Servicing and Advertising and Publicity expense functions, together with related sub-functions, proposed under Draft Release No. 68, for Group II and Group III carriers are realigned as follows:

Function	Subfunctions
6,400 aircraft and traffic servicing-----	6,100 aircraft servicing. 6,200 traffic servicing. 6,300 servicing administration.
6,700 promotion and sales-----	6,500 reservations and sales. 6,600 advertising and publicity.

18. Accounts prescribed for property and equipment, together with related valuation reserves, and the Reserve for Bad Debts are renumbered to facilitate mechanical processing in conformance with the chronological order prescribed for each account in balance sheet presentations.

19. Property acquisition adjustments are classified for balance sheet presentation under the Deferred Charge category and are amortized by charges to nonoperating expenses.

## SECURITIES AND EXCHANGE COMMISSION

### I 17 CFR Part 270 I

#### RULES AND REGULATIONS, INVESTMENT COMPANY ACT OF 1940

#### APPLICATIONS REGARDING JOINT ENTERPRISES OR ARRANGEMENTS

Notice is hereby given that the Securities and Exchange Commission has under

consideration the amendment of § 270.17d-1 (Rule N-17D-1) pursuant to the provisions of section 17 (d) of the Investment Company Act of 1940.

Section 270.17d-1 now in effect was adopted pursuant to section 17 (d) of the Investment Company Act of 1940 on March 20, 1951 (Investment Company Act Release No. 1598). The Commission then announced that it regarded bonus or pension plans having profit-sharing characteristics, or other profit-sharing arrangements, of registered investment companies or companies controlled by such investment companies in which affiliated persons participate, as coming within the purview of section 17 (d) of the act. The Rule, however, required that all such plans, other than those coming within certain stated exceptions, should be the subject of an application, without regard to whether such plans involved profit-sharing.

The proposed amended Rule would require a filing with respect to any such plan, with certain exceptions, in which affiliates of an investment or controlled company participate only where such plan possesses profit-sharing character-

istics. The amended Rule would also require a filing with respect to joint enterprises or other joint arrangements entered into between or among registered investment companies and controlled companies thereof, on the one hand, and affiliated persons or the principal underwriter of such investment or controlled companies on the other. Underwriting agreements are specifically excluded.

The amended Rule excepts bonus, profit-sharing or pension plans of controlled companies where affiliates of the investment company do not participate. It also excepts trustee or insured pension or profit-sharing plans that qualify under Section 401 of the Internal Revenue Code of 1954 and where all contributions paid under the plan qualify as deductible under Section 404 of said Code.

The text of the proposed amended Rule is as follows:

§ 270.17d-1 *Applications regarding joint enterprises or arrangements, including bonus, profit-sharing pension, and incentive pay plans based on net earnings.* (a) No affiliated person of or principal underwriter for any registered investment company and no affiliated person of such a person or principal underwriter shall participate in, or effect any transaction in connection with, any joint enterprise or other joint arrangement or profit-sharing plan in which any such registered company, or a company controlled by such registered company, is a participant unless an application regarding such joint enterprise, arrangement or profit-sharing plan has been filed with the Commission and has

been granted by an order entered prior to the submission of such plan to security holders for approval, or prior to its adoption if not so submitted.

(b) In passing upon such applications, the Commission will consider whether the participation of such registered or controlled company in such joint enterprise, joint arrangement or profit-sharing plan on the basis proposed is consistent with the provisions, policies and purposes of the act.

(c) The language "joint enterprise or other joint arrangement or profit-sharing plan," as used in this section shall have the following meanings:

(1) "Plan" means any written or oral plan, contract authorization, or arrangement, or any practice or understanding, pursuant to which any obligatory payment is or will be made by a registered or controlled company.

(2) "Joint enterprise or other joint arrangement" means any transaction or undertaking as between or among a registered or controlled company and one or more affiliates thereof in which transaction or undertaking the participants therein have a joint or joint and several participation but shall not include an underwriting agreement.

(3) "Profit-sharing plan" shall mean any plan pursuant to which a registered or controlled company is obligated to make payments as compensation or added compensation to any affiliate thereof which payments are required to be computed upon the basis of the (i) income, (ii) realized gain or loss on investments or (iii) unrealized appreciation or depreciation of investments of

such registered or controlled company, but shall not include any bonus, pension or incentive pay plan in respect of which payments made or to be made on account thereof by a registered or controlled company are not so computed.

(d) Notwithstanding the requirements of paragraph (a) of this section, no application need be filed pursuant to this section with respect to any of the following plans:

(1) Any profit-sharing plan provided by any controlled company which is not an investment company for its officers or employees, provided no affiliated person of any investment company which is an affiliated person of such controlled company participates therein.

(2) Any trustee or insured pension or profit-sharing plan provided by any management investment company or any controlled company for its officers or employees if such plan has been qualified under section 401 of the Internal Revenue Code of 1954 and all contributions paid under said plan by the employer qualify as deductible under section 404 of said Code.

All interested persons are invited to submit data, views, and comments in writing to the Securities and Exchange Commission, Washington 25, D. C., on or before October 14, 1955.

By the Commission.

Assistant Secretary.

GILA AND SALT RIVER MERIDIAN

T. 1 N., R. 8 E.,  
Secs. 4, 5 and 6: All.

The lands described comprise 384 small tracts and contain a total of 1,919.12 acres.

2. The lands are located approximately three miles north of Apache Junction, which is 16 miles east of Mesa and at the junction of Arizona State Highway 88 (Apache Trail) and U. S. Highway 60-70. The climate is arid with an average annual precipitation of about 9 inches. The elevation is from 1,800 to 2,000 feet above sea level. The temperature varies from a high of about 115° F. in summer to a low of about 25° F. in winter. The soil is sandy and supports a fair vegetative cover including palo-verde, mesquite, creosote, ocotillo, various species of cacti including saguar and cholla, and a few annual weeds and grasses. Culinary water is not available from any known source but can probably be developed from wells at a depth of from about 300 to 500 feet. Electric power is available from transmission lines located about two miles to the south.

3. (a) The individual tracts are all approximately 5 acres in size and rectangular in shape with the longer dimension east and west.

(b) The appraised price of all tracts is \$200 per tract and the advance three year rental is \$30.

(c) Rights-of-way 33 feet in width for streets, roads and public utilities will be

reserved on all section lines and quarter, sixteenth and sixty-fourth subdivision lines.

4. Leases will be issued for a term of three years and will contain an option to purchase in accordance with 43 CFR 257.13. Lessees who comply with the general terms and conditions of their leases will be permitted to purchase their tracts at the appraised price provided that during the period of their leases they either, (a) construct the improvements specified in paragraph 5, or (b) file a copy of an agreement in accordance with 43 CFR 257.13 (d). Leases will not be renewable unless failure to construct the required improvements is justified under the circumstances and non-renewal would work an extreme hardship on the lessee. All mineral rights will be reserved to the United States.

5. To maintain their rights under their leases, lessees will be required to either (a) construct substantial improvements on their lands, or (b) file a copy of an agreement with their neighbors binding them to construct substantial improvements on their lands. Such improvements must conform with health, sanitation and construction requirements of local ordinances and must, in addition meet the following standards:

The home must be suitable for year-round use, on a permanent foundation and with a minimum of 500 square feet of floor space. The homes must be built in a workmanlike manner out of attractive materials properly finished. Adequate disposal and sanitary facilities must be installed.

6. (a) Applicants must file, in duplicate, with the Manager, Land Office, Room 251 Main Post Office Building, Phoenix, Arizona, application Form 4-776 filled out in compliance with the instructions on the form and accompanied by any showings or documents required by those instructions. Copies of the application form can be secured from the above-named officials.

(b) The applications must be accompanied by a filing fee of \$10 plus the advance rental specified above. Failure to transmit these payments with the application will render the application invalid. Advance rentals will be returned to unsuccessful applicants. All filing fees will be retained by the United States.

7. All valid applications filed prior to 10 a. m., June 30, 1948, will be granted the preference right provided by 43 CFR 257.5 (a). CALIFORNIA

NOTICE OF FILING OF PLAT OF SURVEY

SEPTEMBER 14, 1955.

Notice is given that the plat of survey of the following described lands, accepted May 11, 1955, will be officially filed in the Land Office, Sacramento, California effective at 10:00 a. m., on the 35th day after the date of this notice:

HUMBOLDT MERIDIAN

T. 1 N., R. 2 W., Sec. 36, E $\frac{1}{2}$ .

The area described aggregates 320 acres.

The subject land is located in West-central Humboldt County, approxi-

mately 8½ airline miles southwest of Scotia, and 9 miles southeast of Cape Mendocino. It is rough and mountainous, with a change in elevation from 1,000 feet at the northwest corner to 2,100 feet at the southeast. The west side of the land is traversed by the south fork of the Bear River, and numerous northwest trending drainages are tributary to that stream. An unsurfaced dirt road crosses the northeast corner of the land; otherwise it is inaccessible to vehicular traffic. Vegetation consists principally of Douglas fir and White fir, which are present in merchantable quantities.

The primary purpose of this survey was to accommodate the right of the State of California under Grant for Common Schools in the Act of March 3, 1853 (10 Stat. 244)

It is presumed that the right of the State of California attached to the subject land on the date of acceptance of the plat of survey, subject to valid existing rights and the provisions of existing withdrawals. Therefore, preference rights of veterans of World War II and the Korean conflict, and others, as provided by the Act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279-284) as amended, do not attach to this land.

Inquiries concerning this land shall be addressed to the Manager, Land Office, Bureau of Land Management, Sacramento, California.

## SECURITIES AND EXCHANGE COMMISSION

[File No. 812-953]

NATIONAL SECURITIES & RESEARCH CORP.  
AND NATIONAL SECURITIES SERIES

NOTICE OF FILING OF APPLICATION PERMIT-  
TING CERTAIN REINVESTMENTS OF DIVI-  
DEND DISTRIBUTIONS AT NET ASSET VALUE

SEPTEMBER 16, 1955.

Notice is hereby given that National Securities & Research Corporation, the sponsoring company of National Securities Series, a registered open-end management investment company, has filed an application pursuant to section 6 (c) of the Investment Company Act of 1940 ("Act") for an order of the Commission exempting from the provisions of section 22 (d) of the Act the offering of certain shares of National Securities Series at net asset value, where such shares represent investments of dividends paid to participants under a periodic withdrawal plan referred to below.

National Securities Series has at the present time a dividend reinvestment program under which investors may arrange for investment of their dividends; under that plan distributions representing capital gains are invested at net asset value and dividends from other sources are reinvested at the public offering price. National Securities Series now proposes to establish a periodic withdrawal plan under which, at the request of any investor, the investment company will hold his shares, and liquidate at designated intervals sufficient shares to realize predesignated sums which will be paid to the investor; under such plan all distributions, whether from income, capital gains or otherwise, on shares subject to this program, will be reinvested in additional shares at net asset value. It is contemplated that the amount of periodic withdrawals will be greater than dividends from income.

Among other things section 22 (d) of the Act, with certain exceptions not applicable here, prohibits a principal underwriter of a registered investment company from selling redeemable securities of such investment company to any person except at a current public offering price described in the prospectus. Since the proposal set forth above may involve the offering of shares of National Securities series below the normal public offering price thereof described in its prospectus, in contravention of the provisions of section 22 (d) of the Act, National Securities & Research Corporation seeks an order pursuant to section 6 (c) of the Act exempting such transactions from the provisions of section 22 (d)

Section 6 (c) of the Act authorizes the Commission, by order upon application, to exempt, conditionally or uncondition-

ally, any transaction from any provision of the Act or of any rule or regulation thereunder, if and to the extent that the Commission finds that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than September 30, 1955, at 5:30 p. m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the application may be granted as provided in Rule N-5 of the Rules and Regulations promulgated under the Act.

By the Commission.

WORCESTER COUNTY ELECTRIC CO.

NOTICE OF PROPOSED ISSUE AND SALE AT  
COMPETITIVE BIDDING OF PRINCIPAL  
AMOUNT OF FIRST MORTGAGE BONDS

SEPTEMBER 16, 1955.

Notice is hereby given that Worcester County Electric Company ("Worcester"), an electric utility subsidiary of New England Electric System ("NEES") a registered holding company, has filed with this Commission an application and an amendment thereto pursuant to the Public Utility Holding Company Act of 1935 ("Act") designating section 6 (b) of the Act and Rule U-50 thereunder as applicable to the proposed transaction, which is summarized as follows:

Worcester proposes to issue and sell, pursuant to the competitive bidding requirements of Rule U-50, \$8,500,000 principal amount of Series D Bonds, to be dated as of October 1, 1955, and to mature October 1, 1985. The interest rate (which shall be a multiple of  $\frac{1}{8}$  of 1 percent and not in excess of  $3\frac{3}{4}$  percent) and the price, exclusive of accrued interest, to be paid to Worcester therefor (which shall be not less than 100 percent nor more than 102 $\frac{3}{4}$  percent of the principal amount) will be determined by competitive bidding.

The bonds will be issued under a First Mortgage Indenture and Deed of Trust dated as of July 1, 1949, as amended and supplemented, and will be secured equally and ratably with the presently outstanding Series A, B and C bonds of Worcester.

The proceeds from the sale of the Series D Bonds will be applied to the payment of Worcester's short-term note indebtedness (\$6,200,000 at September 1,

1955, with further borrowings anticipated) and the balance, if any, will be used to pay for capitalizable expenditures or to reimburse the treasury therefor. Worcester desires to consummate the proposed transaction in order to finance permanently capitalizable additions to its properties.

Worcester has filed an application with the Massachusetts Department of Public Utilities for authorization of the proposed transaction.

Worcester estimates its fees and expenses to be incurred herein at \$48,000, including compensation at cost for services of New England Power Service Company (mutual service company of the NEES system), \$14,000; securities registration fee and stamp taxes, \$10,234; printing and engraving, \$10,500; accounting and engineering fees, \$4,500; trustee's fees, \$5,500; and miscellaneous expenses, \$3,266. The amount of the fee and expenses of independent counsel to the underwriter will be supplied by amendment.

It is requested that the Commission's order herein be made effective upon issuance.

Notice is further given that any interested person may, not later than October 5, 1955 at 5:30 p. m., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law, if any, raised by said application which he desires to controvert, or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, said application, as filed or as it may hereafter be further amended, may be granted as provided in Rule U-23 of the Rules and Regulations promulgated under the Act, or the Commission may grant exemption from its rules as provided in Rules U-20 (a) and U-100 or take such other action as it may deem appropriate.

By the Commission.

CONSOLIDATED GAS CO.

NOTICE OF FILING REGARDING ISSUANCE OF  
COMMON STOCK BY PUBLIC UTILITY COM-  
PANY AND ACQUISITION THEREOF BY  
PARENT HOLDING COMPANY

SEPTEMBER 15, 1955.

Notice is hereby given that American Natural Gas Company ("American Natural") a registered holding company, and Michigan Consolidated Gas Company ("Michigan Consolidated"), a gas utility subsidiary company of American Natural, have filed with this Commission an application-declaration pursuant to the Public Utility Holding Company Act of 1935 ("Act"), and have designated sections 6, 7, 9, 10 and 12 of

American Natural proposed to pay such purchase price out of the proceeds obtained from its recent offering of common stock. Michigan Consolidated will use the net proceeds from the sale of Michigan Consolidated common stock for the payment of construction costs and to reimburse its treasury for funds so used.

Michigan Consolidated further proposes to amend its Articles of Incorporation so as to increase its authorized shares of common stock from 4,500,000 shares (of which 4,475,000 shares are presently outstanding) to 5,500,000 shares.

It is stated that the foregoing transaction will have been expressly authorized by the Michigan Public Service Commission, the State Commission of the State in which Michigan Consolidated is organized and doing business, and that no other commission, other than the Securities and Exchange Commission, has jurisdiction over the proposed transaction.

Notice is further given that any interested person may, not later than October 3, 1955, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on this matter, stating the nature of his interest, the reason for such request, and the issues of fact or law, if any, raised by such filing which he proposes to controvert, or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C.
